Dear Friends,

Warm wishes for happy, prosperous & successful 2012. Rejuvenated from Andaman, we have been engrossed in our normal day to day activity. We have our National annual academic feast at Bangalore to bring us together again in the beginning of the New Year. Our zone is coming up & making its presence felt in the country. East is always the symbol of light, energy & success & our members have made it possible to come up to this stage. Now it is the phase of consolidation. Let us put all of our efforts to build our zone in academic, research & fellowship.

All of us have to take a resolution, that unfulfilled task is to be completed in the New Year. Registration of our society, developing our website, academic exchanges among our institutions needs to be done without further delay.

I am sure our members will take up the responsibility with guidance of seniors to fulfill these requirements.

Thanking you

With warm regards
